Order: Z060050416

the Authorized Body has reviewed documents submitted by the manufacturer, performed the initial type-testing of the product sample, assessed factory production control and has stated, that

- this product fulfils the requirements derived from related essential requirements given in the above mentioned Government Decree and detailed in the construction technical approval (STO):
construction technical approval (STO) No. 060-023776 of 21.04.2006
- the factory production control complies with technical documentation and ensures that products put on the market meet the requirements laid down in the above mentioned construction technical approval and comply with relevant technical documentation according to Article 4 Clause 3 of the above mentioned Government Decree.

The Product Certification Report No. 060-023999 of 24.04.2006 and containing the conclusion of the findings, assessments, test results and description (eventually sketch) of the product necessary for its identification is to be considered as an integral part of this certificate.

This certificate remains valid as long as the requirements given in the designated construction technical approval referred to hereinabove or the manufacturing conditions in the factory or the factory production control itself are not modified significantly.

The Authorized Body performs at least once per 12 months the surveillance of proper function of the factory production control according to Article 5 of the above mentioned Government Decree. If the Authorized Body identifies some failures, it is competent to cancel or change this certificate.

The person taking overall responsibility for this certificate:

Brno, April 24th 2006

Ing. Miroslav Procházka
Deputy Manager of the Authorized Body 204
